## ***WHO IS MCA-I?***

The Media Communications Association - International is a global community of professionals devoted to the business and art of visual communication. We are professionals who work in video, film, distance learning, web design and creation, and all forms of interactive visual communications, along with all associated crafts. Our members create programs that use visual media to convey important messages and information for corporations, small businesses, agencies, non-profit organizations, the government, education, the medical field, broadcast and cable television, etc. You name it, we do it!

Founded in 1973 as the International Television Association (ITVA), MCA-I currently has over 80 chapters in North America as well as international affiliate members around the world. For more information, please contact the MCA-I Ohio Valley Chapter, P.O. Box 2046, Dayton, OH 45401-2046, e-mail: [editor@mcai-ohiovalley.org](mailto:editor@mcai-ohiovalley.org), web site: [www.mcai-ohiovalley.org](http://www.mcai-ohiovalley.org)

## HOW TO USE THIS DIRECTORY

This directory consists of two sections:

- **Section One:** An index of all listings *by production service*. It indicates specialized services, if applicable.
- **Section Two:** All listings are arranged *alphabetically*, and include their address, phone numbers, contact names, email and web site addresses, and a 60 word or less description as submitted by the company or individual.

Again, all listings are arranged in alphabetical order by the company name or individual's last name, with no implied rating or preference. MCA-I Ohio Valley or other chapter members are denoted by **bold type**.

In the index, a company or individual may be listed under more than one category, depending on the scope of services they offer. Be sure to check out each listing in a category to find the company or individual that will best meet your needs.
